

East Berks

Hi all bet you're all eager to know what we've all been up to?

Last club night we were given an illustrated insight into Ian Thompson's many visits to the Irish rally and he gave a very interesting chat that kept folk riveted to their chair.

The next event that is usually well supported so long as the weather is ok is the Pioneer run which this year looks like there might be a split in loyalties as the normal Brighton fish and chips could be replaced with a nearer greasy spoons breakfast, so we shall see.

I still have some tickets for our up and coming Elvis night "obviously not the real Elvis as that would be dead boring" this one is a local tribute act and should go down well, food in the form of sausage and chips or Scampi and chips are included in the £15 ticket price all proceeds to the Chiltern air ambulance.

Rex Kicks of his infamous midweek runs for those of a retired disposition, please try and partake as he puts a lot of work into sorting out some very scenic routes.

Roger, Ralph and I have entered the Lands' End long distance trial which is over the Easter weekend so we are praying for dry weather for a change.

Just an early reminder that the Chiltern Charity run this year is the 16th July as per usual all proceeds to the Chiltern Air Ambulance so keep a date clear in your diaries for this one.

That's about it at the moment hopefully the better weather is around the next corner and we will see everyone out and about, so stay sunny side up and see you all soon.

Graham
