

East Berks Section Notes for October 2017 Jampot Magazine.

Crashby competed at the Goodwood Revival on his 7R-G50 conversion. Apparently Goodwood was competing with Glastonbury for sales of wellington boots, sadly Karl didn't have any with him... After a very soggy practice day, Roger and his racing partner Tim Jackson managed to qualify 15th out of a grid of 30 which included such competition as Michael Dunlop, William Dunlop and Troy Corser. The pairings are apparently a sort of "Pro-Am" combination, but this writer can't quite work out how Michael and William Dunlop as a team fit that epithet. "Our Heroes" first race went well, finishing 14th, whilst the Dunlops didn't. However, day two was not so good as a drive belt snapped on the second lap bringing their involvement to a close. Roger has also been out with Karl competing in the Arbuthnot Trial, where Karl had an intense course in puncture repairing. Roger, Karl and Graham also competed in the Edinburgh Trial along with several others. The trial takes place in Derbyshire and Karl had the next session in his puncture repair training. The last of the season's mid-week runs took place on 20th Sept. Just Rex on his M16 and DY on his BSA on a ride out to a café near Harwell and back. GL is now taking bookings for the Annual Awards Night on first Monday in December, places are limited so get your booking in soon.
