

East Berks Section April Jampot Notes

With the recent cold, wet, ice, snow and generally inclement weather, combined with several of the more active members heading to either warmer climes or to the Alps to go skiing, there has been little motorcycling activity. Some including Roger have been beavering away in sheds getting their rides for the new season ready.

By the time this report is published, The Pioneer Run (which is our first club outing of the season), will have been and gone. On our club night on 16th April, Trevor Woods will be giving a short presentation on The Film Industry. Our next outing will be on "Ride It Day" (22nd April), where we are intending to attend "The Bicester Scramble". Planning is well in hand for our 8 day Capitals of The British Isles Tour (taking place in June).
