

East Berks Section – Jampot Section Notes – June 2018

Lucky old us, first the sun comes out and allows thoughts of good riding to follow, then those thoughts are dashed as the rain, wind and cold returns.

However a good day for our run to the Bicester Scramble (airplane re-enactment not glorious thumping mud-pluggers), where half a dozen riders went and enjoyed the day. This was held on the FBHVC Ride it Day, and a goodly show of old vehicles of all sorts were out on the road.

John Deane and Jim Grantham both celebrated their 90th birthdays this month. John's family laid on entertainment at a local Hall and Jim was serenaded by a 40 strong mixed choir, who happened to be using our section meeting venue for a one-off practice. We at The East Berks certainly know how to organise things.

Talking of which, the routes and venues for the runs taking place during the Alternative Rally that we are organising this year, have all been settled and finalised. Full details, entry forms etc are all available via the contact details noted in the large, small ad, later in the magazine.

Our gallant 'Off-Road' participating crews are continuing to undertake their various pursuits and regal us with their exploits at Club Nights. Come along and join in the banter.

Finally, the month of May sees a change in MoT regulations, amongst which is vehicles over 40 year old are exempt. Good or bad – discuss.
