

## **East Berks March 2019 Section Notes**

Poor weather hampers most motorcycling activity at this time of year. However we still have section members who deem themselves young and hardy enough to venture out in less than favourable conditions, being Roger, Ralph, Graham, Joe, Karl, Mick etc. who rode in the Talmag Trial, held at Hungry Hill, Aldershot. No awards appear to have been won but all completed the course, except for Ralph Brown who retired after the first lap. (More fettling required Ralph!).

The funds raised at our 2018 charity events have now been donated to Prostate Cancer Research. £600 had been collected and our efforts were recognised by the Maidenhead Advertiser, at the end of January. The charity head office expressed their sincere thanks when we contacted them about making the donation.

The demonstration by Dennis Wray on how to fit a Brightsparks modification to a magneto had to be postponed. All are now awaiting this demo at a future meeting, so they can decide if this is the best for their bikes.
