

East Berks

What a strange world we are dealing with at the moment, section members are either shielding, decorating, digging the garden or fixing motorcycles. Thankfully we are all fit and well and finally able to ride our bikes a little, although club nights have ceased for the time being. But we have been able recently to get out and explore the local area. Crashby has taken the "leader" reins on a couple of recent runs, exploring the Chilterns and Eric Patterson lead us into darkest Hampshire. This was an epic trip, I don't think my AJS twin had ever been that fast, but great countryside and a very good hostelry (The Bat and Ball somewhere in Hampshire).

A number of East Berks members attended the Fish and Chip shop at Bagshot. This is a well known haunt for classic motorcyclists, so if you are in the vicinity on a Wednesday lunchtime (A30) do call in. Good Food and a great selection of bikes.

The latest run allowed 7 members to explore the East Chilterns (6 bikes of the marque and a BSA) in fabulous weather and great countryside. It seemed to me that there was an element of normality, let's hope it continues.

With the cancellation of club nights, all club racing, trials and scrambles the salvation is to get out on our bikes whilst the weather is kind. If there's an opportunity and keeping to government guidelines we should all take advantage to enjoy our hobby.

Hopefully, within the next few weeks we can start club nights again.

Keep Safe

Crashby
