

East Berks May 2021 Section Notes

Thanks to a combination of Joe Public taking note and acting on what the Scientists and the Folk in charge have been saying, the BUG problems seem to be diminishing, so we actually went out on our first socially distanced run since last Autumn,

The 2nd April saw two groups of 6 and a half, negotiating deliberately placed road closures and a mass of bicycle riders, for a short toodle round South Oxfordshire and Buckinghamshire.

So successful it was, that second and third trips out were then suggested.

The second took place on 10th April and due to unreported fuel shortages or a poor weather forecast (I think the latter), not half a socially distanced group managed to get to the 9.30am start for a run out round the wilds of Buckinghamshire.

So, better fortune for the third, which is pencilled in for 3rd May, with the 9am start from the Shire Horse on the A4 at Littlewick Green.

No information yet on the Cricket Club re-opening, but as soon as there is any news, the usual round-robin email will be sent out.

Well done on the Newbury lot for desecrating their old meeting place so badly, that it was found necessary to completely demolish and the rebuild it. See April **Jampot** section Notes. I think it can still be counted as another 'new' place in which they will be ensconced, which I think makes a total of 14 since they broke away from the friendly East Berks. Shouldn't have left us.

As before, stay safe inside, try to keep out of trouble and when possible, careful and safe riding.
